CAREER SNAPSHOT

Results-driven Senior Software Engineer with 9+ years of experience building scalable mobile and web applications using React Native, React.js, JavaScript, and TypeScript. Experienced in delivering cross-platform Android and iOS solutions across healthcare, AI, FinTech, education, and enterprise domains. Skilled in API integrations, WebSockets, application performance optimization, CI/CD workflows, and modern development practices including AI-assisted development with GitHub Copilot and Cursor. Currently expanding expertise in cloud technologies, microservices architecture, backend development, and GenAI-powered applications.

CERTIFICATIONS

- Certificate in PG-Diploma in System Software Development from CDAC-Hyderabad.

SKILL SET

Technical:

CORE TECHNOLOGIES

Frontend:	React Native, React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3
Mobile:	Expo, Android, iOS, Push Notifications, Deep Linking, App Store Deployment Play Store Deployment
State Management:	Redux, Redux Toolkit, Context API
Backend Integration:	REST APIs, WebSockets, Authentication (JWT/OAuth), API Integration
AI & Modern Development:	Generative AI (GenAI), AI-Assisted Development, GitHub Copilot Cursor AI, Claude AI
Cloud & DevOps:	Git, GitHub, GitLab, Bitbucket, Azure DevOps, CI/CD, Fastlane, AWS (Basic)
Architecture:	Microservices (Working Knowledge), Monorepo Architecture Scalable Application Design, Performance Optimization
Testing:	Manual Testing, Regression Testing, Performance Testing, Playwright, Jest
Operating Systems:	macOS, Linux, Windows, Android

PROFESSIONAL EXPERIENCE

PurpleTalk India Pvt. Ltd as Senior Analyst (Since Oct'20 to present)

Led frontend architecture and development for customer-facing web and mobile applications, driving end-to-end feature delivery using React.js, React Native, TypeScript, and Expo.

- Designed and executed secure payment gateway integrations, biometric authentication, session management, and role-based access control across 5+ enterprise applications supporting multiple user roles and business workflows.
- Enhanced real-time data synchronization and patient monitoring solutions using MQTT, WebSockets, and event-driven communication patterns to support low-latency healthcare workflows.
- Architected and executed a Playwright automation framework covering 50+ critical business workflows, reducing repetitive manual validation efforts and improving release confidence across multiple environments.
- Delivered 20+ business-critical features across healthcare, AI-powered applications, cybersecurity, financial services, and enterprise platforms while maintaining high standards for performance, security, and maintainability.
- Built, optimized, and preserved cross-platform Android and iOS applications using React Native and Expo, ensuring responsive user experiences across diverse device ecosystems.
- Cooperated with backend teams on API design, authentication strategies, real-time communication protocols, and scalable integration patterns for distributed systems.
- Mentored and supported 3+ junior developers through code reviews, technical guidance, and architecture discussions, helping improve delivery quality and development efficiency.
- Leveraged GitHub Copilot, Cursor AI, and GenAI-assisted workflows to accelerate development of 20+ features, streamline code generation, and reduce repetitive engineering effort.
- Optimized application performance across Android, iOS, and web platforms by improving rendering efficiency, API interactions, and resource utilization for high-traffic user workflows.

- Worked closely with clients, product owners, solution architects, and cross-functional stakeholders to translate complex business requirements into scalable, production-ready technical solutions.
- Contributed to CI/CD pipeline implementation and automated deployment workflows supporting releases across 10+ mobile and web applications.

Palred Technologies as React-Native Developer (From Jan'20 to Aug'20)

- Enhanced and preserved key mobile application features using React Native and Redux, supporting service discovery, booking, and order management workflows.
- Integrated Google Maps and real-time location tracking functionalities to provide live service provider tracking and an enhanced user experience.
- Applied responsive and reusable UI components, ensuring consistent performance and usability across Android devices.
- Cooperated with backend teams to integrate REST APIs, manage application state, and deliver seamless end-to-end user journeys.
- Resolved production issues, optimized application performance, and contributed to improving application stability and reliability.
- Participated in feature validation, regression testing, and release activities to ensure high-quality production deployments.

Norm Software as React-Native Developer (Apr'19 to Dec '19)

- Enhanced cross-platform mobile applications in the Health & Wellness and Sports Gaming domains using React Native.
- Integrated Google Fit, Facebook Authentication, Segment Analytics, Branch.io Deep Linking, and REST APIs to deliver data-driven and engaging user experiences.
- Built scalable UI components, business workflows, and mobile features while maintaining performance and application reliability.
- Worked with cross-functional teams to deliver feature enhancements, resolve production issues, and support successful application releases.
- Contributed to end-to-end mobile application development, performance optimization, testing, and Google Play Store deployments.

Stimulus Cloud Pvt. Ltd. as Freelancer (Mar '18 to Apr '19)

- Improved and sustained Android applications in the News and Event Management domains, delivering user-centric mobile experiences from concept to deployment.
- Built responsive user interfaces using Material Design components, RecyclerView, and GridView while implementing reusable and maintainable application modules.
- Integrated RESTful APIs and location-based services to deliver personalized news content and real-time event information.
- Expanded event creation, registration, search, and sharing functionalities, enabling users to discover and manage events efficiently.
- Worked with clients to gather requirements, translate business needs into technical solutions, and deliver production-ready mobile applications.
- Managed the complete application lifecycle, including development, API integration, debugging, performance optimization, testing, and Play Store releases.

Kellton Tech Solutions Pvt Ltd. as Junior Software Developer (Jan'17 to Feb'18)

- Expanded and sustained enterprise mobile applications for employee management, attendance tracking, work reporting, and leave management workflows.
- Built responsive Android user interfaces using Material Design principles and reusable UI components to enhance usability and maintainability.
- Integrated RESTful APIs and backend services to enable secure data exchange, employee information management, and real-time workflow processing.
- Enforced attendance, activity reporting, and leave management modules that digitized key employee workflows and reduced manual administrative processes.
- Coordinated with cross-functional teams to gather requirements, troubleshoot issues, and deliver reliable in-house enterprise solutions.
- Contributed to application testing, debugging, performance improvements, and production support activities to ensure stable application releases.

EDUCATION

2016 **PG-Diploma (System Software Development)** from CDAC, Hyderabad with 60.50%.

2014 **B.E. (Electronics & Telecommunication)** from CSVTU with 64.97%.
2010 **XII** from CGBSE Board with 74%
2008 **X** from CGBSE Board with 77.5%

Workshop Attended:

- Attended Ethical Hacking Seminar in Government Engineering College, Bilaspur (C.G.).

Co-curricular Activities:

- Certificate of G.K. quiz at “Manthan”, Innovative Computer Education at Interschool competition, Korba (C.G.).
- Certificate of Technical Quiz at “Unnayan”, Rungta group of colleges, Bhilai (C.G.).
- Certificate of Participation of “Vital Tutorials Pvt Ltd”, Korba (C.G.).

PERSONAL DOSSIER

Date of Birth:	13 th September, 1992
Present Address:	Begumpet, Hyderabad.
Permanent Address:	R. P. Nagar, Phase-1, MIG-13, Korba (C.G.).
Language:	English, Hindi, Gujarati

DECLARATION

I hereby declare that the above-mentioned information is correct to my knowledge, and I bear the responsibility for the correctness of the above-mentioned particulars.

DATE:

PLACE: Hyderabad
